Unpack

- Setup Instructions (this sheet)
- Safety and Warranty Guide
- Service and Troubleshooting Guide
- Other supplements or flyers

Notes:
1) Some models may contain items that are not listed.
2) If any item is missing or damaged, contact your place of purchase.
3) Everything for recovering factory-installed files and applications is in the Lenovo® partition on your hard disk.

Important: Before removing the Lenovo partition, be sure to create a recovery disc. For more information, see "Recovery overview" in Access Help.
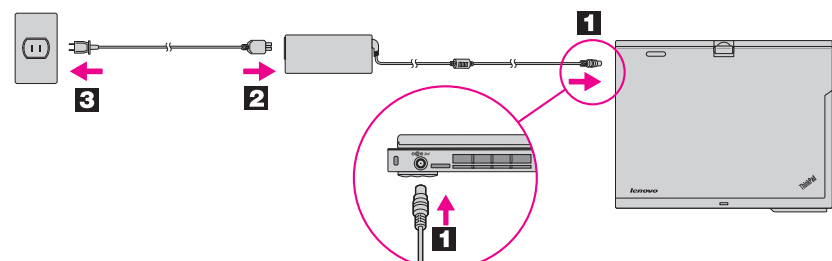

Initial Setup Instructions

Read the safety notices and important tips in the included manuals before using your computer.

1 Install battery pack:

2 Connect to power:

3 Turn on the power:

4 Point and click with TrackPoint® Navigation System:

Press the TrackPoint cap in the direction you want to move the pointer. The left and right buttons below the space bar function like mouse buttons.

5 Configure the Operating System following on-screen instructions:

This process takes several minutes.

6 For more details, refer to Access Help:

For how to open Access Help, see the reverse side of this page.

7 Convert to tablet mode:

Slide the latch release and open the display.

Rotate the display 180 degrees.

or

Close the display and press the latch down.

X200 Tablet Setup Poster

Thank you for choosing a ThinkPad Notebook.

The ThinkPad Notebook raises the standard for ultraportability and versatility.

Thin and light Tablet PC

Your computer is a powerful 12.1-inch widescreen convertible Tablet PC that enables you to work productively wherever you want to be. Housed in a durable magnesium frame and with a protected display, you can rotate the display to use your computer in tablet mode.

The UltraBase™ option enhances the portability and expandability of your computer.

Full-size keyboard and pen or touch input

Your ultraportable computer features the same excellent full-size keyboard found on larger, mainstream ThinkPad Notebooks, so that typing is easy. You can also use the Tablet Digitizer Pen or the touch panel (multitouch panel or single-touch panel)* to input data into your computer.

To learn more about tablet mode, see Tablet mode in Access Help.

Multimedia features

Your computer includes multimedia features, such as an integrated camera*, a 5-in-1 Media Card reader*, stereo speakers, and a dual array digital microphone that has the Beam Forming feature. By using the microphone, you can reduce ambient noise and capture your voice even in a noisy place. Also you can enjoy clear sound from the stereo speakers.

To learn more about hardware features, see About your computer in Access Help.

Power-saving design

The energy-efficient design of your computer enables longer continuous operation on battery power. Energy-saving features such as sophisticated power management give you the best balance between performance and power saving. Your computer meets the Climate Savers efficiency standards and the ENERGY STAR program requirements for computers.

To learn more about extending battery life, see Learn how to achieve all day computing in Access Help.

Diverse connectivity options

Your computer provides you with advanced connectivity options, such as Gigabit Ethernet, Wireless LAN, Wireless USB*, *Bluetooth**, WiMAX*, and Wireless WAN*.

To learn more about network connections, see Getting connected in Access Help.

ThinkVantageTechnologies

ThinkVantage Technologies are advanced technologies that enable you to improve productivity, protect your data, and reduce overall lifecycle costs.

Using Access Help (online manual) and the included manuals

To find detailed information about your computer, open Access Help, or see the Safety and Warranty Guide or the Service and Troubleshooting Guide.

Access Help

Access Help is a comprehensive online manual that provides answers to most of your questions about your computer, helps you to configure preinstalled features and tools, or solve problems.

To open Access Help, do as follows:

For Windows® 7:
Click **Start** and click **Help and Support**. In the Windows Help and Support, click **Lenovo Access Help**.

For Windows Vista® and Windows XP:
- Press the ThinkVantage button. Under Quick Links in the ThinkVantage Productivity Center, click **Access on-system help**.
- Click **Start**, move the pointer to **All Programs**; then to **ThinkVantage**. Click **Access Help**.
